Professional Experience

Software Development Engineer - Frontend,
Bitbeast Private Limited

March 2024 – present

- **Collaborated** closely with cross-functional teams including **Product, Backend, and Design** to iteratively **design, develop, test,** and optimize product features using **agile methodologies** and tools such as **Jira.**
- **Developed and maintained responsive web applications** using **Next.js, React.js, TypeScript, React Query, Redux Toolkit, Ant Design,** and **Material UI.**
- **Collaborated with team members** to resolve **technical challenges,** ensuring smooth project delivery.
- **Contributed to code quality** by following **best practices** in **development** and **code reviews.**

Projects we delivered :

RCS Message Sender:

- Developed an **RCS messaging platform** enabling businesses to send **rich content messages** (including images, carousels, and text) directly to customer devices.
- Implemented **message scheduling** and **auto-sending features,** ensuring **timely** and **personalized communication** with customers.

E-commerce Platform for Marketing Software:

- Developed a fully-functional **e-commerce platform** for selling **marketing software,** enabling customers to browse, purchase, and manage software products seamlessly.
- Integrated **payment gateway** and **order management system,** ensuring smooth transactions and efficient order processing.

Software Development Engineer Intern - Frontend, *Admitkard*

August 2023 – February 2024

- Collaborated with a team of developers using the **Next.js** tech stack to enhance existing products and improve functionality.
- Built the internal web app using **Next.js, React.js, TypeScript,** and **Material UI.**

Fullstack Developer - Student, *neogCamp*

February 2023 – August 2023

Worked on front-end development with **React JS** and back-end management using **NodeJS** and **MongoDB.**
