Professional Experience

Software Development Engineer - Frontend,
Bitbeast Private Limited
March 2024 – present

- **Collaborated** closely with cross-functional teams including **Product**, **Backend**, and **Design** to iteratively **design**, **develop**, **test**, and optimize product features using **agile methodologies** and tools such as **Jira**.
- **Developed and maintained responsive web applications** using **Next.js**, **React.js**, **TypeScript**, **React Query**, **Redux Toolkit**, **Ant Design**, and **Material UI**.
- **Collaborated with team members** to resolve **technical challenges**, ensuring smooth project delivery.
- **Contributed to code quality** by following **best practices** in **development** and **code reviews**.

Projects we delivered :

RCS Message Sender:
- Developed an **RCS messaging platform** enabling businesses to send **rich content messages** (including images, carousels, and text) directly to customer devices.
- Developed and implemented **message scheduling** and **auto-sending features** to ensure timely and personalized customer communication.

E-commerce Platform for Marketing Software:
- Designed and developed a fully functional **e-commerce platform** for browsing, purchasing, and managing **marketing software** products.
- Integrated **payment gateway** and **order management system**, ensuring smooth transactions and efficient order processing.

SDE Intern - Frontend, *Admitkard*
August 2023 – February 2024

- Collaborated with a team of developers using the **Next.js** tech stack to enhance existing products and improve functionality.
- Built the internal web app using **Next.js**, **React.js**, **TypeScript**, and **Material UI**.

Fullstack Developer - Student, *neogCamp*
February 2023 – August 2023

- Worked on front-end development with **React JS** and back-end management using **Node JS, Express JS,** and **MongoDB**.
